

## TROXLER TRAINING COURSE SCHEDULE

### Nuclear Gauge Safety Training

Troxler's Nuclear Gauge Safety Training Course satisfies NRC and Agreement State training requirements for nuclear gauge operators, as well as U.S. DOT 49 CFR172, subpart H (HAZMAT)\*. The 8-hour course runs from 8:00 AM - 5:00 PM. A quiz is given, with a minimum passing score required for certification. The cost is \$179 per person up to 4 students; \$159 per person for 5 or more students (all students must attend the same class session for the \$159 pricing to apply). If you prepay and cannot attend, a credit will be issued valid for 1 year. Students must make their own hotel accommodations. Some hotels listed offer discounts. Please contact hotels for details.

\* HAZMAT certification must be renewed every 3 years. Troxler offers a HAZMAT re-certification session as part of all Nuclear Gauge Safety Training Courses. The session runs from 1:00 PM - 3:00 PM and a quiz is given with a minimum passing score required for re-certification. The cost is \$89 per person.

## Radiation Safety Officer Training

Troxler's Radiation Safety Officer Training Course offers advanced training based on current NRC and U.S. DOT regulations for individuals responsible for radiation safety and regulation implementation within their organizations. The 8-hour course runs from 8:00 AM - 5:00 PM and offers comprehensive coverage of radiological practices, regulations, licensing, leak testing, transportation, personnel monitoring, record keeping, and accident response. The course also satisfies U.S. DOT 49 CFR172, subpart H (HAZMAT). A Radiation Safety Officer course is mandated by several states and encouraged by all licensing agencies. An RSO manual will be provided for course work and as a reference tool along with a certification of course attendance. The cost is \$395 per person.

- \* Attendees of the RSO Course must have previously completed a certified Nuclear Gauge Safety Training Course.
